Viewpoint from the Editor

The modular club just returned from the 2010 Barrie Train Show. It was a busy weekend, and all the visitors enjoyed our N Scale modular layout. Thanks to all the club members who came out to help during the weekend.

It's time to start thinking about the 2010 Sudbury Train show. We are looking to lock in a date in late October, but before we do we will be looking for commitment from club members to help prior to and during the show. Members will be contacted in the near future with details regarding a meeting to discuss organization of this year's show.

Mike Svos and his regular crew of helpers have been busy in the basement during the winter. Trackwork and scenery on the HO layout have been progressing. In addition, Mike has resurrected his O Scale trains, which can now be seen alongside the HO scale layout we are used to seeing. Make sure to join us for the May meeting to see all the changes.

Back in February 2009 I wrote about Richards G Scale Garden Railroad, and the fact that since Richard was moving to a new house the layout was taken apart. Richard has spent the time since then planning his next layout. This included a change to a new scale – On30. That's O Scale Narrow Gauge. The new layout will be mostly based on narrow gauge logging and mining activities, and will feature steam powered geared locomotives. The track plan has been finalized, and the bench work is in progress. Hopefully by the June meeting, some track will be laid and we will be able to see some of these locomotives running.

See you at a future meeting.
